This Commentary or Dialogue is brought to you for free and open access by the University of Hawai‘i Press at Kahualike. It has been accepted for inclusion in Rapa Nui Journal: Journal of the Easter Island Foundation by an authorized editor of Kahualike. For more information, please contact sheilayeh@hawaii.edu.
ity that the Fonck Museum, housed in a handsome old, once-private home, may be torn down and replaced by a glass-and-aluminum structure. It is believed that the city's mayor, Rodrigo Gonzalez, has only twice set foot in the Museum, once during a cocktail party inaugurating an exhibition of Peruvian antiquities. He has, however, given assurances (no promises!) that if the current Museum building is demolished, the Fonck will be given new and maybe even enlarged space in the new, modern edifice. An earlier suggestion, that the Museum be moved to the "Quinta Vergara," a park-like area located on the other side of the city center, has apparently been nixed. Part of the reason is the expense (and risk) involved in moving the authentic Rapa Nui moai that stands in the front yard, and the inaccessibility to the park area for tour buses. Museum officials as well as some of the people living in the neighborhood, are fighting the proposed demolition and "modernization."

BOOKS FOR SALE!

The Easter Island Foundation's first used book sale fundraiser has been successful and we would like to expand it with the help of our many Rapanuiphile friends. If you have duplicate books, or ones that you no longer deem essential to your Easter Island library, donate them to the Easter Island Foundation. We will acknowledge your gift with a receipt for the current wholesale value (1/2 the retail value). In most cases this will be more than you originally paid, so you will gain a nice tax deduction along with some shelf space, and your book will find a loving new home. The Mulloy Library will of course have first right of refusal before any books are offered for general sale.

The EIF still has some of the books advertised in our last issue. Many of these are rare and valuable; others are out of print, and certain ones may be of interest to general Polynesian studies. All proceeds benefit the Easter Island Foundation. If you are interested in any of the following, please contact us via fax: (805) 534-9301, mail, or email: rapanui@compuserve.com.

**LE BULLETIN DU CERCLE D’ETUDES SUR L’ILE DE PAQUES ET LA POLYNESIE.**

**FORD, HERBERT.** 1996. *Pitcairn—Port of Call.* Hawser Titles, Box D, Angwin, CA 94508. Softcover, 484 pages plus list of sources. $19.95

Described as “A fascinating maritime history of the world’s ships calling at the lonely island home of descendants of the ‘Mutiny on the Bounty’ mutineers,” Pitcairn—Port of Call consists of a listing of every known ship that called at the island, starting in 1790 and ending in 1990. The sections are divided by dates. The intervals vary, although most encompass ten-year increments. The largest sections are those dealing with the early years, 1790-1849 and 1850–1879. Aside from a short six-page introduction, the book is entirely made up of ship landings. Some of the entries are embellished with historical information taken from island or ships’ logs. This is a book that will delight the hearts of sailors and lovers of minutiae, and all Bounty enthusiasts.

**MARQUESAS STUDIES INSTITUTE.**
<http://www.SpiritOne.com/~msi/>

The basic aim of MSI is to promote research in the Marquesas in all disciplines. MSI is providing volunteers for an archaeological project on Nuku Hiva in June. Founder of MSI, David Addison, is also putting together a multi-disciplinary study of the leeward side of Nuku Hiva. Future plans involve a small journal and online research resources.
